

Our Chemical Engineering students have actively engaged in a range of technical events and co-curricular activities. Notably, Dhanashri Lokare (CH5I) was awarded the third prize in a speech competition celebrating Chhatrapati Shivaji Maharaj Rajyabhishek Din on August 25, 2023. Additionally, Shivkanya Gholve and Varsha Raut (CH5I) secured the first prize in a poster presentation focused on "Environment Awareness" held on August 29, 2023. Their achievements exemplify our commitment to holistic development and excellence. Inauguration of "MERI MATI, MERA DEH" was celebrated at Gp Jalna on 19/10/2023.

In our latest initiative, the department successfully organized a workshop on water testing for students, in collaboration with the Civil Engineering Department. This workshop offered hands-on experience and valuable insights into the intricacies of water quality analysis, showcasing interdisciplinary cooperation and practical learning.

Summer Industrial Training-2023

Students have attended implanted six week industrial training at Varad Fertliser pvt.ltd,Jalna, Vaidehi pvt ltd.Jalna, during academic year 2022-2023.

We had the privilege of hosting an illuminating expert lecture, sponsored by the Institution of Engineers (India), on the topic of “Packed Column Internals - An Insight.” This insightful session, led by the esteemed Dr. V.V. Mahajani from the Institute of Chemical Technology, Mumbai, was conducted on October 3, 2023. It catered specifically to our students from CH1K, CH5I, and CH3I. This event was a significant opportunity for our students to deepen their understanding of chemical engineering principles and to gain valuable insights from one of the leading experts in the field.

An expert lecture titled "The Importance of Research in Chemical Engineering" was delivered by Miss Pratibha Sampatrao Jadhav, a distinguished Research Associate at the Institute of Chemical Technology, Marathwada Campus, Jalna. This enlightening session was organized specifically for our CH5I and CH3I students on October 13, 2023. The event provided a unique opportunity for students to gain valuable insights into the critical role of research in advancing the field of Chemical Engineering, directly from an experienced professional in the industry.

SCHOOL CONNECT-2023

Faculties of Dept. is involved in school connect for guidance and cancelling of 10th std. students through whatsapp group, phone call, newspaper advertisement and google meet.
